Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I get hold of something that quickly and completely cured me. Fears have passed and the rupture has never returned, although I am doing hard work as a carpenier. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me. Eugene M. Pulien, Carpenter, 4536 Marcellus Avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruputred you may save a life of at least stop the minery of rupture and the worry and danger of an operation.
